

PLUSWOOD®

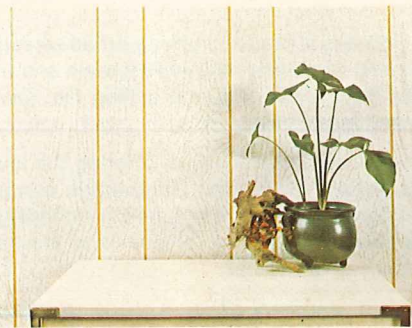

The Paneling People

PREFINISHED WALL PANELING

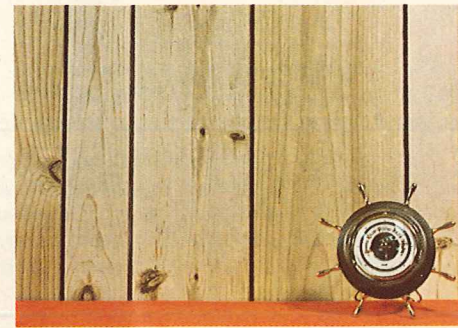

PLUSWOOD®, one of the pioneers in the wall paneling field, offers an exclusive prefinished process. All ACRYCLAD® panels, from the most economical to the most luxurious, receive the same surface treatment: a tough, baked-on acrylic finish which seals the face of the panel and renders it truly maintenance free. SURFER, and ACRYCLAD® panel, is embossed and printed for a sculptured look. VINYLFACE® is a hardwood paneling overlaid with a tough vinyl film, reverse printed with sophisticated designs and color combinations.

Add the Luxury of Real Hardwood Paneling to Your Home Today!

PORTSMOUTH features something seldom seen in paneling — cross-grooving. In this panel, the look of old planking is achieved, complete with simulated square nailheads. An ideal panel for special decorating treatments such as those with a nautical flavor. The soft wood tones of Portsmouth paneling create a distinctive yet comfortable living area.

Charcoal 8.99

RIO GRANDE paneling has a bold, embossed grain you can feel. Rich, earthen colortones in this special texturing captures the unique ruggedness and beauty of the sun country. Rio Grande sets the scene for informal and formal interiors.
