

PLYWOOD

Handy Building Panels for the Do-It-Yourselfer

Quality. Variety. Price. Whatever you're building, Scotty's has plywood, hardboard or particleboard panels that will fit your needs and your budget. The grades and sizes available in these panels provide an excellent selection of material to tackle any project, inside or outside your home.

Cross Lamination Gives 2-Way Stretch.

Plywood is made from a number of thin sheets of veneers peeled from logs and laminated together under heat and pressure to form a strong versatile building panel. Each ply runs at right angles to the adjacent plies for the greatest strength and stability. It also resists stress in all directions.

Veneer Grades

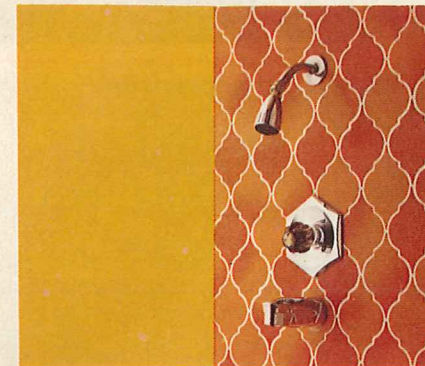

The number of plies depends on the thickness of the plywood, i.e., 1/4" 3-ply, 3/4" 5-ply. When plywood is used across supports as in subflooring or roof sheathing, the grain of the outer plies should always run across the supports for maximum strength.

- A knot-free grade with a smooth, well sanded surface. It is usually the face veneer for plywood used in cabinet making and high quality furniture.
- Small tight knots are allowed along with circular repairs. The surface is sanded and is highly paintable.
- This is a general use utility veneer which will have medium knots and repairs. It is the *minimum* grade veneer allowed in exterior plywood and may be used for support and backing purposes. It should not be used where appearance is important.
- This veneer can be used only in interior types of plywood panels. Any defect is permissible as long as it does not impair the strength of the panel.

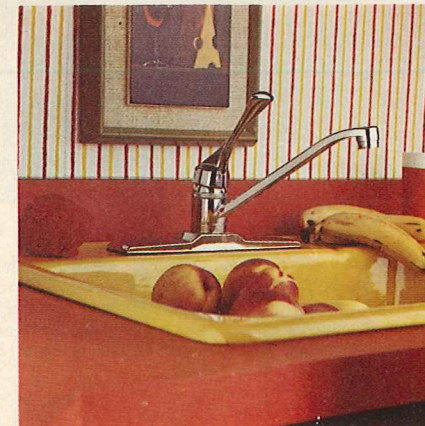

Advantages

- Large Size**
The large 4' x 8' panels simplify construction and save time and labor costs.
- Lightweight**
Plywood weighs less than most lumber and metals of equivalent strengths.
- Easy To Work With**
Plywood cuts and nails as easily as wood and you can use ordinary carpentry tools and skills.
- Strength**
Plywood's cross lamination makes it very strong and ideal for structural applications.
- Impact Resistant**
Plywood resists splits and punctures and absorbs shock.
- Dimensional Stability**
Plywood's cross lamination restricts expansion and contraction within the individual plies, therefore, giving superior stability to the entire panel so plywood has a high resistance to twisting, buckling and warping.
- Thermal Insulation**
Because of its large size, the number of joints on a wall or roof are greatly reduced and it is harder for unwanted drafts and air to penetrate.
- Nail Holding Ability**
Plywood has exceptional nail holding ability and will not split even when nailed 1/8" from the edge.

Washerless PEERLESS FAUCET

8730

8200

MODEL 8730 valve diverter, tub spout and shower head.
Scotty's Price 27.20

MODEL 8200 8" center for three hole sinks.
Scotty's Price 24.65

MODEL 8500 with spray attachment for four hole sinks.
Scotty's Price 30.65

MODEL 9620 two handle washerless lavatory faucet with Duralac knobs and pop-up drain.
Scotty's Price 22.95

MODEL 8620 4" centerset with pop-up assembly.
Scotty's Price 28.50

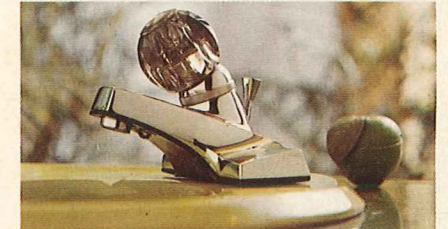

MODEL 9510 two handle washerless kitchen faucet for 4-hole sinks with spray. Duralac knobs.
Scotty's Price 26.15

MODEL 9210 two handle washerless kitchen faucet for 3-hole sinks. Has Duralac knobs.
Scotty's Price 20.65

No. 1200 HOOK-UP KIT
Scotty's Price 75c

AquaStream Washerless Faucets

LAVATORY FAUCETS
7-0125-2-15 without pop-up, acrylic handles.
Scotty's Price 10.25
7-2125A-2-15 with pop-up and aerator, washerless, acrylic handles.
Scotty's Price 15.50

KITCHEN FAUCETS
6-128-2-15 without spray, acrylic handles.
Scotty's Price 12.75
7-128CA-2-15 without spray, has aerator and acrylic handles.
Scotty's Price 15.50
6-1128-2-15 with spray, has acrylic handles.
Scotty's Price 17.95
7-1128CA-2-15 with spray, aerator, acrylic handles.
Scotty's Price 20.75
6-430-2-15 Bar/Pantry Faucet, acrylic handles.
Scotty's Price 11.50
6-434T-1-01 Laundry Faucet.
Scotty's Price 9.50

TUB AND SHOWER
6-2902-15 Three Valve Diverter fittings for tub and shower. Acrylic handles.
Scotty's Price 20.95
6-1702-15 Shower Fittings, acrylic.
Scotty's Price 15.95
6-1601-15 Tub Filler, acrylic handles.
Scotty's Price 14.95
6-500 Trip Waste, brass.
Scotty's Price 12.95
6-P-500 Trip Waste Tube — ABS.
Scotty's Price 11.69
52-ABS Showerhead, chrome plated.
Scotty's Price 1.59
