Scotty's Price

Scotty's has discontinued sliding doors with regular plate glass and is now stocking only doors with tempered glass. **Tempered Glass** is an outstanding feature and meets recent government requirements for the use of safety glass in sliding glass doors. Like your automobile side and back windows, **Tempered Glass** is four to five times as strong as regular glass. If broken, tempered glass breaks safely into small pieces resembling rock salt. For the maximum in safety and protection for your family, insist on tempered glass!

- AAMA approved, meets FHA and VA requirements.
- Double polyvinyl weatherstrip at all lock and interlock stiles - specially designed polyvinyl seals at head and sill for draft-free sealing.
- Vertical adjustment of panels, if necessary, is a simple screwdriver operation.
- Reversible panels for left or right opening.
- Panels glide on ball bearing for smooth, quiet operation.
- Glass panels are securely mounted in heavy aluminum frames with shock absorbing vinyl channel.
- Anodized finish for lasting beauty.
- Key locks optional.

SINGLE HUNG WINDOWS

ALUMINUM WINDOWS WITH REMOVABLE SASH

FEATURES

- AAMA approved - meets FHA and VA requirements
- Take out sash for ease of cleaning or repairing
- Adjustable spiral balances
- 1/2" flange for Florida type buildings
- Equal width glass in vent and sash
- Colonial styling available at any time
- Positive trouble free sash lock

Outside dimensions include flange
