

GALVANIZED STEEL ROOFING

BI-RIB

THE BI-RIB SHAPE is a remarkable combination of mechanical strength, attractiveness and economy. BI-RIB can be applied with confidence to all types of farm and industry buildings — as well as a multitude of other applications.

GALVANIZED STEEL is a tried and proven material for roofing and siding applications — Strong and Durable.

SPECIFICATIONS — 29 gauge, width 38" basis, coverage 36".

BI-RIB GALVANIZED STEEL ROOFING

	Scotty's Price
8' x 38"	7.29
10' x 38"	9.39
12' x 38"	11.45
14' x 38"	13.55
16' x 38"	15.59

GALVANIZED STEEL ROOFING

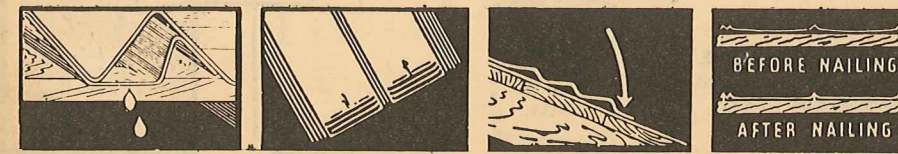

V-Drain
This patented feature prevents leaks at side laps. Rain blown under or drawn under laps by capillary attraction is caught in the "V" and drained off.

Triple Cross Crimp
Triple Cross Crimps keep rain from being drawn under end laps by capillary attraction.

Pressure Lip
A slight depression at the end of the sheet provides close pressure between overlapping sheets at the end laps, prevents rain from being blown under.

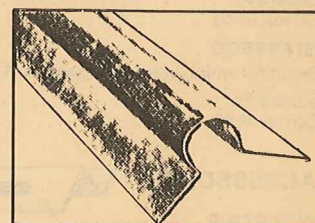

Tension Curve
This exclusive feature of Tennesseeal makes every sheet fit snugly against roof decking.

26" width-overlap on 24" center. 29 gauge.

Covers 24"	Scotty's Price
